Dr. Daniel Everett

Dean of Arts and Sciences
Bentley University

Keynote Address:

*“Latin American Indigenous Cultures
in Western Science and Society Or
Why the Grave of Frederick the Great
is Covered in Potatoes”*

Introduction by:

TBD

The Ohio State University

Latin American indigenous languages have altered our understanding of our species and how it copes with the common problems of human survival. They bring to us foods, philosophies, languages, and concepts of diversity that are unique and profound. Culture is far richer than often believed, environment cannot explain values or languages, and Latin American societies have produced profound cognitive innovations that should be more widely known. Dr. Everett’s keynote address will focus on life and learning among Latin American indigenous peoples, centered around his work among indigenous societies of Brazil.

Dan Everett is a linguist focused on understanding how cultural values constrain language, incorporating the tradition of William James. He has conducted extensive field research throughout jungle villages and has worked closely in Brazil, completing an Sc.D. in Linguistics at the University of Campinas. Over the years, he has taught at the University of Pittsburgh, the University of Manchester, and Illinois State University. He is now the Dean of Arts and Sciences at Bentley University.

Friday Evening Film Showing: *Wiñaypacha*

6:00 - 8:00 PM

Gateway Film Center
1550 North High Street
Columbus, OH 43210

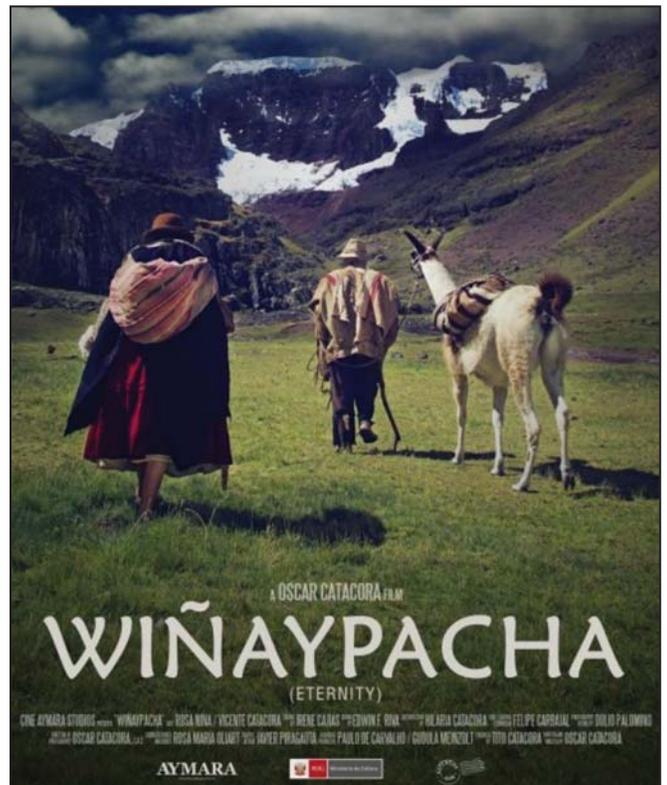

Directed by Oscar Catacora, *Wiñaypacha* is the first Peruvian movie filmed entirely in the Aymara language. Its story is based around two characters, Willka and Phaxsi, an elderly couple who live in the Peruvian Andes, reminiscing of days gone by and hoping for their son's return. The story is a person one for Catacora, who explained that he was inspired by the lives of his grandparents.

Wiñaypacha is a welcome addition to a growing canon of films from the region that hope to celebrate and revitalize indigenous languages (similar to Guatemala's *Ixcanul* and Colombia's *Embrace of the Serpent*). The film received several awards at the Guadalajara international Film Festival, followings its debut in April 2018. *Wiñaypacha* was produced with state funding through Peru's Project Competitions and Cinematographic Works of the Ministry of Culture.

"*Wiñaypacha* makes indigenous peoples visible through their language and customs," says Catacora, "and its presentation through the different platforms is important, as it has cultural, social, and artistic relevance."

Dr. María Coca Chavarría

Professor for the Graduate School at San Marcos University

Keynote Address:

“Nuevos discursos y estrategias interculturales entre andinos y amazónicos ”

Introduction by:

TBD

The Ohio State University

Con frecuencia encontramos en el mundo académico eventos de antropología, literatura o lingüística subtítulos como andino o amazónico, de manera separada, como si se trataran de entidades antagónicas. Es un hecho que el contacto de lenguas y culturas se ha acelerado hoy en día por la globalización y el acceso al mundo cibernético. En medio de estos acontecimientos, la producción cultural reciente de los pueblos indígenas tiene características muy especiales que Chavarría intentará esbozar en esta presentación. Por otro lado, los atentados contra el medio ambiente, los crímenes contra líderes ambientalistas, indígenas en su mayoría, el saqueo de recursos como el bosque y el agua nos afecta a todos por igual. En esta ponencia, Chavarría desmitificará que tanto andinos y amazónicos sean realidades antagónicas pues existen evidencias de cómo los pueblos indígenas en el Perú entraron en contacto mucho antes que los españoles en una dinámica poca conocida. En segundo término, presentará ejemplos de cómo en la actualidad los pueblos indígenas, dentro de un marco de dinámica intercultural, vienen generando sus propios discursos culturales que van desde la oralidad hasta la escritura: las autoetnografías, el testimonio pero también la pintura, música e incluso el cine.

Maria C. Chavarría is an outstanding linguist and teacher. She studied at San Marcos University in Peru where she got her Bachelor's in Linguistics and Education. Later, she attended the University of Minnesota and got a Master's and a Ph.D. from that institution. She has worked with Amazonian languages, especially Ese Eja (Takanan family) in Peru and Bolivia. In addition, Professor Chavarría has written many articles and books regarding Ese Eja language, oral tradition and bilingual education. She has been a teacher at San Marcos University in Peru, Indiana University (Fort Wayne), University of Saint Thomas and Macalester College in Minnesota. Her work has been recognized by Spencer Foundation (1996), Guggenheim (1999) and Endowment for the Humanities (2008). She helped Ese Eja people from Peru to design their first alphabet, which is being used in the schools. Professor Chavarría has collected Ese Eja's oral tradition for many years and recently the Peruvian government has published it in a bilingual edition. Currently, she is a professor at the Graduate School at San Marcos University.

Gaspar Pedro González

Author

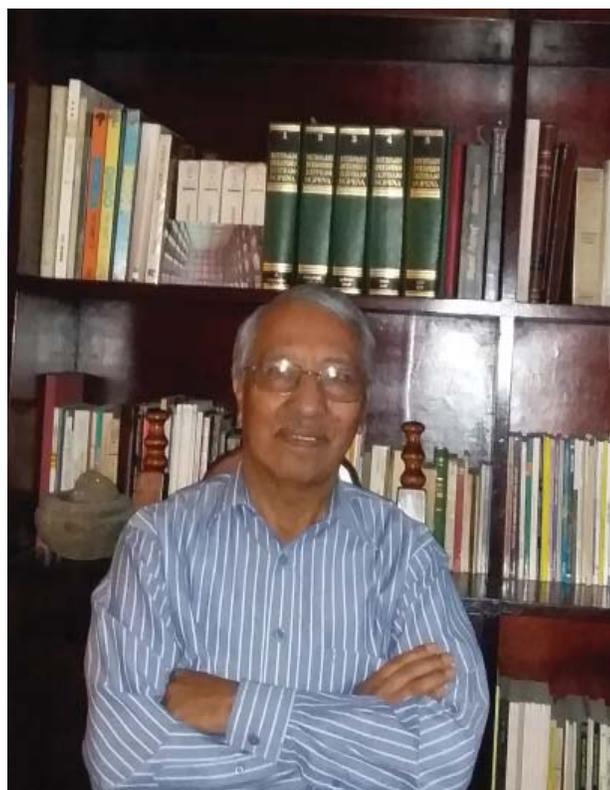

“La Palabra, Principal Elemento de las Culturas Mayas”

Introduction by:

TBD

The Ohio State University

Gaspar Pedro González presentará una lectura en tres partes, sobre “La Palabra, Principal Elemento de las Culturas” con un énfasis en la cultura maya. Él enfocará primero en la cultura, sobre los aspectos conceptuales, aspectos históricos, clasificaciones de la cultura y la cultura e la identidad. Segundo, él hablará sobre la palabra como producto del pensamiento, las características de los idiomas mayas y la relación entre culturas e idiomas. Finalmente, él presentará la literatura indígena con respeto a la palabra oral y escrita, enfocando en los cánones de la literatura maya, las etapas de la literatura indígena en América y los conceptos de: indianista, indigenista e indígena.

Gaspar Pedro González es un autor y académico guatemalteco, bien conocido por su libro *La Otra Cara*, que presenta la historia de las vidas de las mayas q’anjob’ales de Guatemala. El libro ha sido traducido a idiomas como inglés y alemán y utilizado por maestros de veinte universidades en los Estados Unidos. Él tiene su maestría y posgrado superior en Políticas Públicas e Interculturalidad por la Universidad del Valle de Guatemala y también tiene un posgrado en Gerencia Social del Banco Interamericano de Desarrollo y un diplomado de posgrado sobre Economía de la Cultura de la Cooperación Iberoamericana. Él ha trabajado como el Director General de Culturas y Artes por el Ministerio de Cultura y Deportes y un Coordinador Departamental de Educación Extra-escolar en diversas comunidades, entre otros. Finalmente, Gaspar Pedro González tiene muchos reconocimientos: fue declarado personaje del año 2009 por CODISRA por los méritos de ser escritor y académico y también tiene reconocimiento por la Unión Europa como líder indígena, entre otros.

Publication Opportunity

Participants of the 2018 ILCLA/STLILLA Symposium have been invited to submit their papers to the general section of the Languages journal. Contributions within any theoretical, experimental or applied approach are welcome.

Languages (www.mdpi.com/journal/languages) is an international, peer-reviewed open access journal on interdisciplinary studies of languages and linguistics, indexed in DOAJ and ERIH Plus. Languages is led by our eminent Editors-in-Chief, Juana M. Liceras and Raquel Fernández Fuertes.

You can find the instructions for authors and a template to prepare your manuscript at: <http://www.mdpi.com/journal/languages/instructions>. Papers can be submitted at <https://susy.mdpi.com> (registration and submission take a few minutes). Articles submitted in 2018 and 2019 are published free of charge. All papers are thoroughly peer-reviewed and are published online immediately after acceptance.

Symposium Background

The second Symposium on Indigenous Languages and Cultures of Latin America (ILCLA), organized in conjunction with the fourth Symposium on Teaching and Learning Indigenous Languages of Latin America (STLILLA), brings together instructors, practitioners, activists, indigenous leaders, scholars and learners who study indigenous languages and cultures of Latin America and the Caribbean.

This international symposium engages participants in a hemispheric dialogue and serves as a permanent forum for networking and exchanging ideas, experiences and research on methodological, theoretical, pedagogical, and practical issues from inter- and trans-disciplinary perspectives. This forum will enable professionals from around the world to interact with leading experts in the fields of education, language policy and planning, linguistics, cultural studies, ethnomusicology, anthropology, and other disciplines.
